

Oceans

AQUARIUM PRIVATE TOURS

Uncover the mysteries of the ocean
and explore all areas of the aquarium.

A Holistic Experience

Have you ever wondered what happens behind or inside an aquarium? How fish are fed, how marine species, like seahorses and lobsters, are cared for, and how the perfect conditions are created to mimic their natural habitats?

A private tour with a personal guide in XPLORE Oceans, the only aquarium in Athens, offers a unique opportunity to learn more about its inhabitants and gain deeper insights on the ecology of the marine environment and its functioning.

Experience an exclusive **private tour** where you can get an insight of the cutting-edge technology of the aquarium, witness the food preparation of its inhabitants and a deeper understanding of the fish tanks' essential maintenance processes.

Tour Content

- **Marine ecosystems**

Uncover intriguing insights into the diverse marine ecosystems showcased in the aquarium, their distinctive characteristics, the prevailing conditions depending on their location and their marine inhabitants.

- **Humans and the ocean**

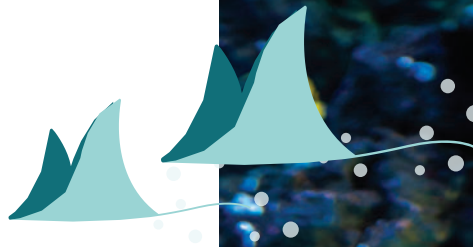

Human actions are putting our oceans at risk. This situation poses a threat not only to marine life but also to humanity itself. Learn everything about the vital connection between humanity and oceans, and the ways we can protect them.

- **Marine organisms**

Dive into the fascinating world of marine biology! Discover the incredible diversity of over 200 marine species residing in the aquarium. Uncover their distinctive traits, explore their daily behaviors, and gain insights into their natural habitats. Embrace the adventure of becoming an amateur marine biologist today!

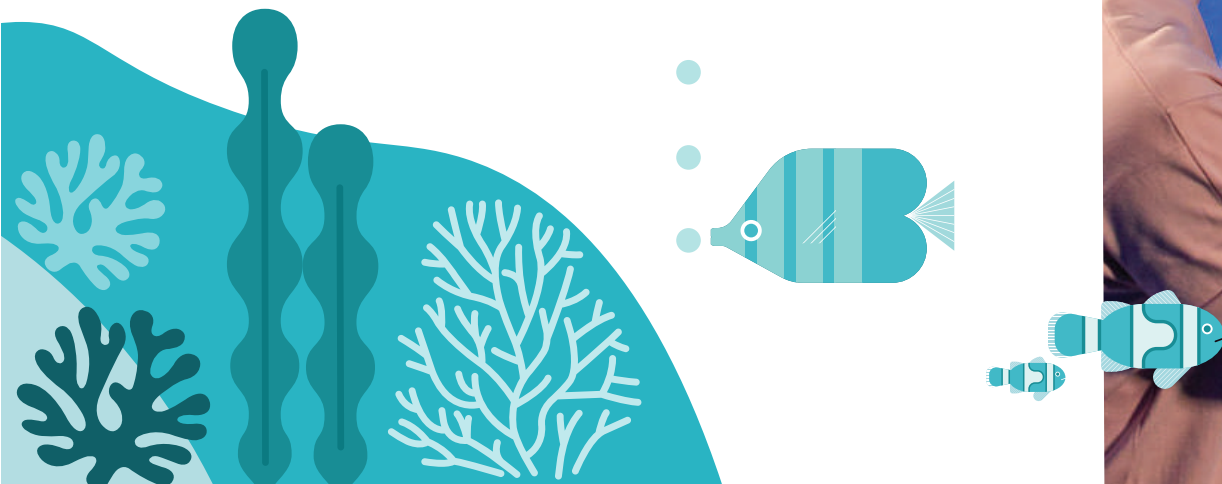

- **Aquarium "Behind the Scenes" Guided Tour**

Caring for an aquarium and its residents requires daily attention to ensure their optimal living conditions. Explore the hidden aspects of aquarium life and witness first-hand the rewarding experience of feeding and nurturing these extraordinary creatures.
